

Ok folks this will be the 3rd time that South Carolina has hosted the Bass Masters Classic. Each one being bigger and better than the last with 2018 promising to carry on that tradition. Everyone is excited and preparations are underway to insure this event will be memorable. As in the past BASS has reached out to The SC BASS Federation for assistance in this endeavor.

One of the cogs in the wheel that we still need is providing drivers to tow the pros to the weigh-in. Toyota is providing the trucks, the pros have the boats and I am tasked with putting drivers in the those new trucks.

We need help in the boat yard hooking and unhooking the rigs as well. The drivers must be at least 21 years of age and have experience towing a boat. If you or your buddies perhaps one of the clubs in the general area would like to volunteer we could really use your help. I did mention the pros right? A great chance to meet and get autographs from your favorite anglers not to mention the conversations while you are driving them to the coliseum. Volunteers must wear closed toe and closed heel shoes. All volunteers and Drivers are required to fill out a Participation Agreement. Volunteers under the age of 18 will need their parent or legal guardian to sign their Participation Agreement. Drivers for the weigh-in will need to fill out a Toyota Driver waiver also. I will email the waivers as soon as I get them. The dates that we need help with are Friday the 16th thru Sunday the 18th of March. It would be great to have the same volunteers for the entire Classic but not necessary. Contact me if you are willing to help or just have a question.
